

Contact Information for Neighborhood Problems

Many problems can be resolved by talking to your neighbors before getting the County involved. Please do that first. Complaints to the County may now be made anonymously - which means that the County will not release the name of the complainant. However, you will have to give your name when making a complaint.

If the County agencies are unresponsive in resolving a complaint, please notify the Lee District Supervisor's office at 703-971-6262.
